(Pictured above are the Coco Tooth light and the Enlaira recycled glass vase)
These are just a few of the items you can find for sale at Biome

Enlaira recycled glass vase in black and pink - £70

Beautiful butterflies decorate this striking vase. Made from 100% post-consumer recycled glass and shipped from Spain. Painted black with shocking pink pattern.

Mohair blanket - £33

Practical and comforting mohair mix throw. This simple throw was handwoven in a weaving cooperative in South India. The cooperative maintains a training scheme and school for weavers; helping to guarantee future employment.

Natural hyacinth cushion - £30

Hand woven from the water hyacinth plant and cut to reveal the inside of the stem. The plant based front has a truly unique, rough, 'bark-like' appearance. The back of the cushion is covered in natural hessian. The cushion can also provide an excellent back rest, with the natural stems offering a stimulating massage on the base of the back.

Coco tooth light - £100

Beautiful and unusual, this Coco Tooth Light is handmade in the Philippines. The light combines aesthetics of naturally gathered products with the durability of modern materials to create a handmade object of beauty. Made from coconut shell slivers that are cut, bleached, drilled then sewn onto a wire frame. The coconut is sourced from ethical growers & is a by product from the food industry.
