

The Green Wedding List Provider

One firm who believes that green ideals and discerning style should no longer be compromised is Biome Lifestyle, an online store that offers an Eco Wedding List Service – the ideal option for the ethical and design conscious couple. This range of beautiful products have been handpicked not only for their aesthetics, but because they are made from recycled, sustainable, organic, or fairly traded materials. Behind each item lies a unique and interesting story telling you exactly where the product came from and the materials used.

A personalised wrapping service, using recycled wrapping paper, complete with individual gift tags, is the perfect finishing touch and at no extra charge, will put another smile on your guest's faces when deciding what they will buy you!

Biome Lifestyle is a sponsor of Nyumba Ya Thanzí. Nyumba Ya Thanzí – meaning The House of Good Health - is a UK based charitable trust working in Malawi to support locally designed development initiatives. The Nyumba Ya Thanzí's Trustee, states: 'We work with Malawians who have ideas about how to improve the lives of people in their country but often lack the resources to put their plans into action. These people who are passionate, committed and have realistic workable plans, particularly look for original ideas inspired by the specific realities of life in Malawi.'

To discuss opening a wedding list with Biome Lifestyle, either telephone Alexandra or James on: 0207 690 4280, or email weddings@biomelifestyle.com For further information on Climate Care visit <http://www.climatecare.org>
